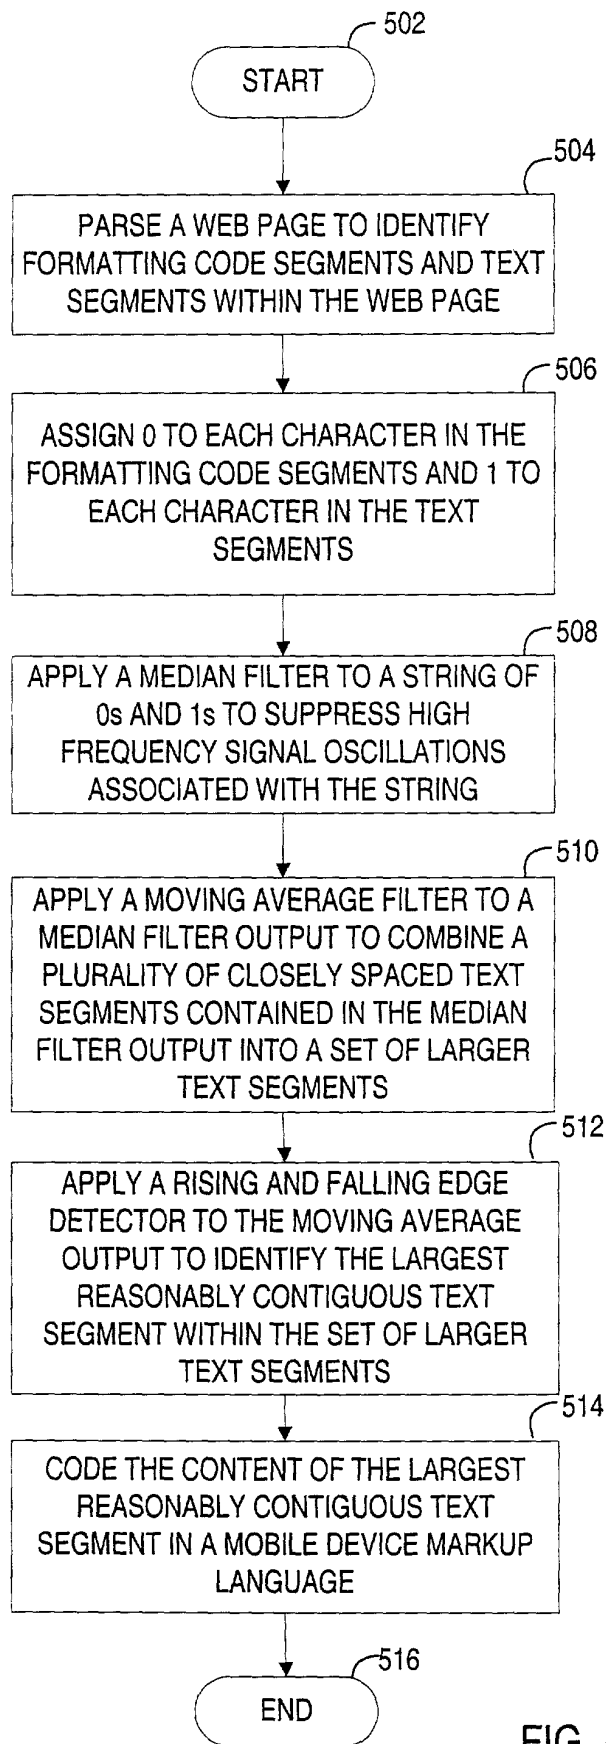

FIG. 5

Figure No. 1 is a histogram titled "Text Density (unweighted)". The x-axis is labeled "Byte" and ranges from 0 to 10000. The y-axis is labeled "Density" and ranges from 0 to 35. A horizontal line is drawn across the plot at a density of approximately 18. Two points, A and B, are marked on this line. Point A is located at a byte value of approximately 5800, and Point B is located at a byte value of approximately 8500. The histogram shows several peaks, with the highest density reaching about 32 at a byte value of approximately 6000.
